HEDGE FUND PERFORMANCE MIXED IN MARCH AS BANK RISK SOARS

EQUITY HEDGE STRATEGIES ADVANCE IN VOLATILE MONTH; CRYPTOCURRENCY, RISK PARITY SURGE; QUANTITATIVE MACRO CTAS DECLINE

CHICAGO, (April 10, 2023) – Hedge funds posted mixed performance in March as bank risk soared amidst instability and dislocations resulting from several bank failures and the acquisition of Credit Suisse by UBS. The HFRI Fund Weighted Composite Index® (FWC) declined an estimated -0.8 percent for the month, the investable HFRI 500 Fund Weighted Composite Index lost -1.2 percent (estimated), and the HFRI 400 (US) Fund Weighted Composite Index fell -1.5 percent (estimated), with performance gains led by Equity Hedge strategies, according to data released today by HFR®, the established global leader in the indexation, analysis and research of the global hedge fund industry.

The HFR Cryptocurrency Index continued its strong start to the year, surging +5.2 percent in March to increase its YTD return to +31.4 percent. The HFR Risk Parity Vol 15 Index bounced back from a -6.8 decline in February to post a +5.9 gain in March, moving its YTD performance to +7.1 percent.

Performance dispersion widened for the month, as the top decile of the HFRI FWC constituents advanced by an average of +7.5 percent in March, while the bottom decile fell by an average of -10.1 percent, representing a top/bottom dispersion of 17.6 percent. By comparison, the dispersion of February performance was only 11.3 percent. Nearly half of hedge funds posted positive performance in March.

Equity Hedge funds, which invest long and short across specialized sub-strategies, led strategy gains for the month, driven by Fundamental Growth and Quantitative Directional sub-strategies, as well as short exposures to financials. Both the HFRI Equity Hedge (Total) Index and the investable HFRI 500 Equity Hedge Index advanced an estimated +0.9 percent in March. EH sub-strategy gains were led by the HFRI EH: Fundamental Growth Index, which gained +1.5 percent, while the HFRI EH: Quantitative Directional Index added +1.4 percent.

Fixed income-based, interest rate-sensitive strategies posted mixed performance in March, as the Federal Reserve raised interest rates, though bond yields declined on flight to quality resulting from increased risk in Financials; the HFRI Relative Value (Total) Index declined an estimated -0.5 percent for the month, while the investable HFRI 400 Relative Value Index fell -0.3 percent (estimated). Leading sub-strategy performance, the HFRI 500 RV: Fixed Income-Sovereign Index advanced +0.45 percent in March, while the HFRI RV: Volatility Index added +0.4 percent.

Event-Driven strategies, which often focus on out-of-favor, deep value equity exposures and speculation on M&A situations, declined in March as risk in Financials soared; the investable HFRI 500 Event-Driven Index fell -1.8 percent (estimated), while the HFRI Event-Driven (Total) Index declined an estimated -1.65 percent. The only ED sub-strategy that produced positive performance in March was the HFRI 500 ED: Multi-Strategy Index, which gained an estimated +1.5 percent.

Uncorrelated Macro led strategy declines for the month, as quantitative, trend-following CTA strategies posted sharp declines with contributions from short fixed-income exposures; the HFRI Macro (Total) Index fell -3.2 percent while the investable HFRI 400 (US) Macro Index fell -4.1 percent (estimated) for the month. Quantitative, trend-following CTA strategies led declines with the HFRI 500 Trend Following Index falling -5.2 percent; these gains were partially offset by the HFRI Macro: Discretionary Thematic Index, which gained +0.3 percent.

Liquid Alternative UCITS strategies mixed performance in March, with the HFRX Global Index posting a decline of -1.2 percent, while the HFRX Market Directional Index gained +0.4 percent. HFRX sub-strategy performance was led by the HFRX Equity Hedge Index, which declined only -0.14 percent, while the Macro/CTA Index fell -3.0 percent. The HFRI Diversity Index declined an estimated -1.15 percent in March, while the HFRI Women Index fell -1.3 percent.

“Hedge funds effectively navigated a historic surge in bank and financial risk, as well as an adjustment to interest rate outlook in March, including the failure of SVB bank, generalized weakness across regional banks, and the government and regulator assisted acquisition of Credit Suisse by UBS. The industry saw gains across equity and cryptocurrency focused strategies offset by declines in short interest rate and credit sensitive exposures,” stated Kenneth J. Heinz, President of HFR. “The combination of these financial events is likely to have long-term implications for financial markets, in addition to hedge fund performance, with macroeconomic impacts ranging from policy regarding uninsured deposits, integrity of AT1 financing, and precedent for government involvement in destabilized financial situations, with these likely to contribute to increased uncertainty and likelihood of extreme dislocations. Institutions and investors are interested in allocating to hedge funds which have demonstrated the robustness of their strategies through this challenging macroeconomic paradigm shift, with these funds likely to lead industry performance through mid-year 2023.”

HFR® is the global leader in the alternative investment industry. Established in 1992, HFR specializes in the areas of indexation and analysis of hedge funds. HFR Database, the most comprehensive resource available for hedge fund investors, includes fund-level detail on historical performance and assets, as well as firm characteristics on both the broadest and most influential hedge fund managers. HFR has developed the industry's most detailed fund classification system, enabling granular and specific queries for relative performance measurement, peer group analysis and benchmarking. HFR produces over 100 indices of hedge fund performance ranging from industry-aggregate levels down to specific, niche areas of sub-strategy and regional investment focus. With performance dating back to 1990, the HFRI Fund Weighted Composite Index is the industry's most widely used standard benchmark of hedge fund performance globally. The HFR suite of Analysis Products leverages the HFR Database to provide detailed, current, comprehensive and relevant aggregate reference points on all facets of the hedge fund industry. HFR also offers consulting services for clients seeking customized top-level or more nuanced analysis.

*For the hedge fund industry's leading investors and hedge fund managers,
HFR is The Institutional Standard*

HFR Database includes HFRI / HFRX Index Constituent Tables

About HFR Database

The licensed/redistributed HFR Database, currently comprised of nearly 6,000 alternative investment products, is available to all accredited investors. Information on our hedge fund universe of established and emerging managers is collected directly from the fund managers and/or their respective offshore administrators, while other pertinent information is culled from offering memoranda, onsite visits, and due diligence interviews.

HFR Database is utilized globally by thousands of accredited investors at leading banks, brokerage firms, investment advisors, wealth managers, funds of hedge funds, hedge funds, academic institutions, foundations, endowments, family offices and sovereign wealth funds. All client relationships are confidential in nature.

HFR believes that accurate information on fund managers is critical to any alternative investment enterprise. To that end, our analysts have monitored and tracked performance and administrative data internally on over 26,000 historically, covering both domestic and international funds, offering comprehensive information not available from other commercial data providers. HFR's dedicated Research Staff searches for new funds to add to the Database on a daily basis.

► **HFR provides subscribers with an unparalleled breadth of fresh information with daily updates**

- HFRDatabase.com is updated daily with fresh data & information, recently submitted by a broad spectrum of funds. New fund data is added by HFR staff or by the fund managers themselves. We do not work with third party data providers

► **HFR works directly with FUND MANAGERS to gain the most up-to-date and accurate fund info possible**

- HFR requests that our client fund managers report performance by the 15th of each month. We also directly integrate the fund manager with HFR Database by providing them with their own website for updating their fund profile. In this manner HFR ensures current and accurate fund data that flows seamlessly from fund managers to subscribers.

► **Database includes Administrative, ROR, AUM, Instruments and Region fund data**

Extracts from **HFR INDUSTRY REPORTS**

HFR Global Hedge Fund Industry Report

Industry insiders utilize HFR Industry Reports to gain a detailed picture of current trends as well as a historical perspective of the hedge fund industry. *The Report includes:*

- Over 200 pages of charts and graphs provided in PowerPoint format
- Estimated total assets and net asset flows for entire industry and by strategy
- Detailed breakout of Quarterly and Annual HFRI performance
- HFRI Annual Performance Matrix
- Risk/Return analysis by strategy: 1, 3 and 5-year summaries of Standard Deviation, Sharpe Ratio, Sortino Ratio Up/Down Capture, Returns Distribution and Market Correlations
- Supporting dataset in Excel spreadsheet format
