MACRO STRATEGIES SURGE IN SEPTEMBER; TOP FUNDS LEAD INDUSTRY PERFORMANCE AS EQUITIES, BONDS POST STEEP DECLINES

***HFRI INSTITUTIONAL, ASSET WEIGHTED INDICES GAIN AS VOLATILITY ACCELERATES;
FIXED INCOME BASED RELATIVE VALUE ALSO ADVANCES;
COMMODITY, TREND FOLLOWING CTAS LEAD SUB-STRATEGIES***

CHICAGO, (October 6, 2023) – Macro hedge funds posted uncorrelated gains and strong outperformance as volatility accelerated through September, with equities and bonds posting steep, correlated declines showing a similar cycle of breakdown in historical correlation as was seen in early 2022. Through this intense volatility, the HFRI Institutional Macro Index surged +3.1 percent, led by Commodity, trend-following CTA and Multi-Strategy exposures. Larger funds extended their outperformance of smaller funds with the HFRI Institutional Fund Weighted Composite Index® posting a strong gain of +0.9 percent, while the HFRI Asset Weighted Index jumped +0.77 percent. The HFRI Fund Weighted Composite Index® (FWC) posted a decline of -0.20 percent, topping the decline of US equities by over 450 basis points, according to data released today by HFR®, the established global leader in the indexation, analysis and research of the global hedge fund industry.

Performance dispersion rose slightly in September, as the top decile of the HFRI FWC constituents advanced by an average of +6.5 percent, while the bottom decile fell by an average of -7.1 percent, representing a top/bottom dispersion of 13.6 percent for the month. By comparison, the top/bottom performance dispersion in August was 13.0 percent. Through the first nine months of the year, the top decile of FWC constituents gained +24.3 percent, while the bottom decile declined -13.2 percent, representing a top/bottom dispersion of 37.5 percent. Approximately half of hedge funds posted positive performance in September.

Uncorrelated Macro strategies led strategy performance in September as equities posted sharp, correlated declines on rising rates and expectations for weakening economic growth. Gains were led by fundamental Commodity, quantitative, trend following CTA and Multi-Strategy sub-strategies. The HFRI Institutional Macro Index surged +3.1 percent for the month, while the investable HFRI 500 Macro Index also jumped +2.9 percent, and the HFRI Macro (Total) Index added +2.3 percent. Leading sub-strategy performance, the HFRI 500 Macro: Multi-Strategy Index jumped +4.45 percent (estimated) in September, while the HFRI Macro: Commodity Index also added +2.75 percent. Quantitative, trend-following CTA strategies also surged in September, with the HFRI 500 Macro Systematic Diversified Index advancing +3.2 percent for the month.

Fixed income-based, interest rate-sensitive strategies also advanced in September as interest rates rose to cyclical highs, with the HFRI Institutional Relative Value Index gaining +0.6 percent, while the HFRI Relative Value (Total) Index added an estimated +0.3 percent for the month. RVA sub-strategies were led by the investable HFRI 500 RV: Volatility Index, which advanced +1.5 percent (estimated) in September while the HFRI RV: FI-Corporate Index also gained +0.45 percent. The credit-sensitive HFRI RV: Multi-Strategy Index added +0.36 percent.

Event-Driven strategies, which often focus on out-of-favor, deep value equity exposures and speculation on M&A situations, reversed recent monthly gains with a decline in September, as gains in Merger Arbitrage were offset by declines in Shareholder Activist funds. The HFRI Institutional Event-Driven (Total) Index declined -0.5 percent for the month, while the HFRI 500 Event-Driven Asset Weighted Index fell -0.47 percent (estimated). ED sub-strategy performance was led by the HFRI ED: Merger Arbitrage Index, which advanced +0.67 percent for the month, while the HFRI 500 ED: Activist Index posted a sharp decline of -2.8 percent.

Equity Hedge funds, which invest long and short across specialized sub-strategies, also posted declines in September with negative contributions from Technology, Fundamental Growth, and Fundamental Value exposures. The HFRI Equity Hedge Index Asset Weighted declined -0.8 percent in September, topping the decline of US equities by over 400 basis points, while the HFRI Institutional Equity Hedge Index fell -1.3 percent for the month. EH sub-strategy declines were led by the HFRI 500 EH: Technology Index, which fell an estimated -4.2 percent in September while the HFRI 500 EH: Fundamental Growth Index lost -2.35 percent, and the HFRI 500 EH: Fundamental Value Index declined -2.2 percent. Partially offsetting these losses, the HFRI EH: Energy/Basic Materials Index advanced +0.5 percent for the month.

Liquid Alternative UCITS strategies also posted mixed performance in September with the HFRX Absolute Return Index advancing +0.79 percent, while the HFRX Equal Weighted Index posted a narrow gain of +0.01 percent, and the HFRX Global Index fell -0.1 percent. Performance was led by Macro and Event Driven strategies, with the HFRX Macro Index gaining +0.62 percent, while the HFRX Event Driven Index advanced +0.14 percent.

The HFRI Diversity Index posted a narrow loss of -0.24 percent in September, while the HFRI Women Index fell -0.70 percent.

“Macro hedge funds and the industry’s largest firms led performance in September as both bonds and equities posted steep declines in a correlated manner, interest rates hit recent highs and inflationary pressures remained strong, while near term prospects for economic growth weakened. Macro hedge posted strong gains across both quantitative, fundamental and commodity focused strategies, with the industry’s largest funds leading gains as asset weighted composites posted positive performance for the month,” stated Kenneth J. Heinz, President of HFR. “In addition to Macro, interest rate sensitive, fixed income based Relative Value Arbitrage strategies also gained in September, demonstrating strong defensive positioning and opportunistic trading in a month where not only did interest rates rise sharply, but volatility increased while equities posted concurrent, sharp declines. Led by the industry’s largest funds, managers remain aggressive and opportunistically positioned for acceleration of this financial market volatility, with an increased likelihood of destabilizing dislocations. Institutions interested in a combination of opportunistic exposure to these powerful trends, as well as defensive capital preservation through the volatility, are likely to increase allocations to managers which have generated strong performance through these recent market headwinds.”

HFR® is the global leader in the alternative investment industry. Established in 1992, HFR specializes in the areas of indexation and analysis of hedge funds. HFR Database, the most comprehensive resource available for hedge fund investors, includes fund-level detail on historical performance and assets, as well as firm characteristics on both the broadest and most influential hedge fund managers. HFR has developed the industry's most detailed fund classification system, enabling granular and specific queries for relative performance measurement, peer group analysis and benchmarking. HFR produces over 100 indices of hedge fund performance ranging from industry-aggregate levels down to specific, niche areas of sub-strategy and regional investment focus. With performance dating back to 1990, the HFRI Fund Weighted Composite Index is the industry's most widely used standard benchmark of hedge fund performance globally. The HFR suite of Analysis Products leverages the HFR Database to provide detailed, current, comprehensive and relevant aggregate reference points on all facets of the hedge fund industry. HFR also offers consulting services for clients seeking customized top-level or more nuanced analysis.

*For the hedge fund industry's leading investors and hedge fund managers,
HFR is The Institutional Standard*

HFR Database includes HFRI / HFRX Index Constituent Tables

About HFR Database

The licensed/redistributed HFR Database, currently comprised of nearly 6,000 alternative investment products, is available to all accredited investors. Information on our hedge fund universe of established and emerging managers is collected directly from the fund managers and/or their respective offshore administrators, while other pertinent information is culled from offering memoranda, onsite visits, and due diligence interviews.

HFR Database is utilized globally by thousands of accredited investors at leading banks, brokerage firms, investment advisors, wealth managers, funds of hedge funds, hedge funds, academic institutions, foundations, endowments, family offices and sovereign wealth funds. All client relationships are confidential in nature.

HFR believes that accurate information on fund managers is critical to any alternative investment enterprise. To that end, our analysts have monitored and tracked performance and administrative data internally on over 26,000 historically, covering both domestic and international funds, offering comprehensive information not available from other commercial data providers. HFR's dedicated Research Staff searches for new funds to add to the Database on a daily basis.

► **HFR provides subscribers with an unparalleled breadth of fresh information with daily updates**

- HFRDatabase.com is updated daily with fresh data & information, recently submitted by a broad spectrum of funds. New fund data is added by HFR staff or by the fund managers themselves. We do not work with third party data providers

► **HFR works directly with FUND MANAGERS to gain the most up-to-date and accurate fund info possible**

- HFR requests that our client fund managers report performance by the 15th of each month. We also directly integrate the fund manager with HFR Database by providing them with their own website for updating their fund profile. In this manner HFR ensures current and accurate fund data that flows seamlessly from fund managers to subscribers.

► **Database includes Administrative, ROR, AUM, Instruments and Region fund data**
